# Great Minds: African American Inventors

African American inventors have a large place in American history. They have contributed ideas and inventions to areas such as agriculture, mechanics, medicine and electronics.

## Thomas Jennings

1791-1859

The first African American to receive a patent, Thomas Jennings invented a way to dry clean clothes. He was awarded a patent in 1821. He was a wealthy businessman and used the money from his business and invention for anti-slavery activities.

## Sarah E. Goode

about 1855 - 1905

One of the first African American women to receive a patent, Sarah Goode invented a cabinet bed. The bed would fold into a desk when not being used, to save space.

## George Washington Carver

1864-1943

George Washington Carver discovered uses for farm crops, such as peanuts and sweet potatoes. He also developed new ways to improve the soil for farming.

## Frederick McKinley Jones

1893-1961

Frederick Jones invented the refrigeration truck. Over his life he received over 60 patents. He was admitted into the National Inventors Hall of Fame.

## Charles R. Drew, M.D.

1904-1950

Dr. Drew improved the ways of donating and storing blood and also developed methods for safe collection in blood banks during World War II.

## Otis Boykin

1920-1982

Otis Boykin invented over 25 electronic devices for computers, radios and guided missiles. He is best known for inventing a control unit for an artificial heart.

## Jefferson's Draft on an Amendment to the Constitution

### 1803

The province of Louisiana is incorporated with the U. S. and made part thereof. The rights of occupancy in the soil, and of self-government, are confirmed to the Indian inhabitants, as they now exist.

The legislature of the Union shall have authority to exchange the right of occupancy in portions where the U. S. have full right for lands possessed by Indians within the U. S. on the East side of the Mississippi, to exchange lands on the East side of the river for those on the West side thereof and above the latitude of 31 degrees; to maintain in any part of the province such military posts as may be requisite for peace or safety; to exercise police over all persons therein, not being Indian inhabitants; to work salt springs, or mines of coal, metals and other minerals within the possession of the U. S. or in any others with the consent of the possessors; to regulate trade and intercourse between the Indian inhabitants and all other persons; to explore and ascertain the geography of the province, its productions and other interesting circumstances; to open roads and navigation therein where necessary for beneficial communication and to establish agencies and factories therein for the cultivation of commerce, peace and good understanding with the Indians residing there.
