Wagner ELA 8

Days 28-31

With everything going on in our lives today, we are all full of different emotions. In the technical world we can express those emotions with Emojis. Attached you will find different emoji for different emotions. On the bottom of the page, there are patterns that you can use to draw in the emoji’s to decorate and color them.

Each day pick an emoji that expresses how you feel about the day. Decorate and color it, and then on the back, write 1-2 paragraphs about how you feel and why you picked that emoji.

I hope you all are doing well and have a wonderful summer break since I will not get to see you before then. I wish you all the best of luck at EHS next year, and I will miss you greatly! I have really enjoyed having you all in class this year. Thank you for making my first year of teaching memorable.

Mrs. Wagner
Draw designs into the divided up spaces on the expression above. Use the suggested patterns below. Also feel free to make up your own or add your own doodles to the page. Then color and cut out your final work.
