Day 17

What is the US Census? It is an official count or survey of the population of the United States and its territories.

How often is the US Census completed? Every 10 years

How is the information (data) used? To help in providing money/supplies for areas such as schools, hospitals, roads, day care centers, playgrounds, etc.

Answer the following questions about the Census, and complete questions for the map.

1. What kinds of things does a place with a lot of young kids need?

   _____

   _____

2. How do government agencies know where these things are needed?

   _____

   _____

Day 18-21

You are going to be a census taker! For day 18, you are to take a census for your household, and for days 19-21 call a family member or friend and complete a census on their households. On a piece of notebook paper write down the following information:

1. Names of members that live in the household (can just be first names)
2. How old are the household members?
3. What is their race/nationality? White, Black, Hispanic, Asian, etc.
4. How many people total lived in the household as of 03/12/2020 (our last day in the classroom)

You may type the assignment if that is easier for you. Please number each answer 1-4.
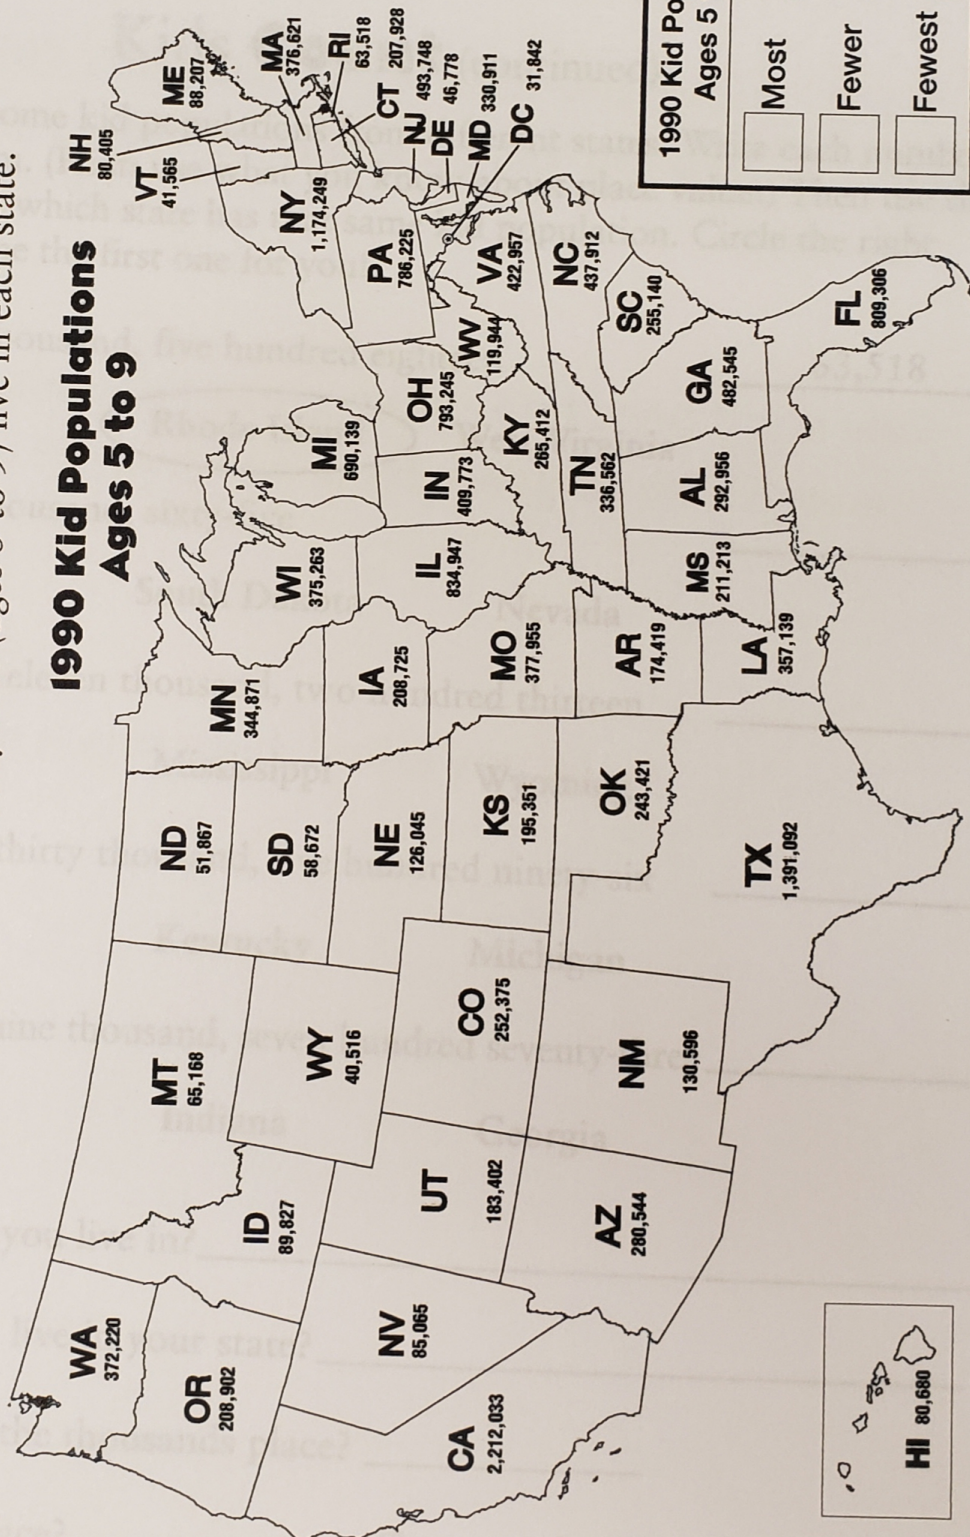

Stay Safe and see you soon!

Name: _____

Kids Count

● Everyone counts in the census. Even kids! This map shows kid populations, or how many kids (ages 5 to 9) live in each state.

1990 Kid Populations Ages 5 to 9

1990 Kid Population Ages 5 to 9

Most	500,000 or greater
Fewer	150,000 to 499,000
Fewest	149,999 or less
